Consulting-Relevant Experience

Data Analyst & E-Learning Strategy Consultant, 09/2009 – Present
Academic Myriad-Noolaan Remote

- Analyzed multi-source datasets (student performance, engagement metrics) to identify inefficiencies and improvement opportunities across programs.
- Delivered data-driven recommendations that improved instructional outcomes and optimized resource allocation.
- Built structured reporting frameworks to track KPIs and support decision-making in remote environments.
- Translated complex data findings into clear, actionable insights for non-technical stakeholders.

Remote Instructor (Data-Driven Performance Optimization), 09/2024 – 09/2025
Mount Vernon City School District Remote

- Leveraged assessment data to identify performance gaps and implement targeted improvement strategies.
- Applied structured problem-solving approaches to improve measurable student outcomes.

Market Research Analyst – Digital Learning Strategy, 11/2011 – 09/2015
Academic Myriad-Noolaan Remote

- Conducted market and competitive analysis to evaluate growth opportunities in online education.
- Synthesized qualitative and quantitative data into strategic recommendations for service expansion.
- Produced client-style reports aligning insights with business objectives and operational improvements.
