

# SKY COMMAND PROMPTS JUSTICE

By Kenneth Wood – <http://liberative.tripod.com> – March 2<sup>nd</sup> 2007

## INTRODUCTION

Would it surprise you to know something? Would it surprise you to know at all? Whatsoever? In the modern world, it seems as though knowledge is speculation – when, in fact, it is not. Despite the previous denial of reality presented by common culture and the current historical fiction (misnamed “news”), reality does in fact exist. But it is not what most anyone thinks it is these days. For one thing, *homo sapiens*’ drivers (their souls) often flip out and even change between persons. In addition, some people have no souls and are like kites. Moreover, there are children of gods’, genies, and demons within people. Please read the pages slowly, so as to make sure that you comprehend what I have written. What is written on them represents important knowledge that will help you develop functional thought processes of your own. If you are reading this document and you encounter words that you do not know (*per se*), look them up or ask “Sky Command”, but do not ask someone else. To attempt the third method would invite speculation. You have the ability to remember things factually, so anything that you do not remember as points of objective material (facts which you yourself have experienced), disregard. That means everything speculative, and everything theoretical, and everything imaginary FORGET. It is rubbish. Your mind has been full of demons, so only go by what you materially have experienced (that is, what you FACTUALLY remember), and what you materially experience.

## THE MOVEMENT IS BACK

The Movement is back.. And this time, it’s STRICTLY SPIRITUAL – nothing material at all. In order to overcome problems that the Movement faces, good LOGIC is absolutely necessary, so that valid protocols (with absolutely no value judgments in them) may be developed personally. For example, there is the ANALOGY form of LOGIC. That is, “A” is LIKE to “B” AS “C” is LIKE to “D”. Secondly, there is the CAUSALITY form. That is, IF PREMISE  $\Phi$  (OR PREMISE  $\Pi$ ) (AND PREMISE  $\Sigma$ ) THEN CONCLUSION  $\Omega$ . Thirdly, there is the COMPREHENSION form. That is, seeing and appreciating the Big Picture, as applies to simple, abstract, and objective aspects of greater truth there is

to behold. Such LOGIC is a matter of INTERPRETATIONS, as accords with legitimate DEFINITIONS. That is, INTERPOLATION (determining connections within known FACTS), FINDING PARALLELS (connections among known FACTS), and EXTRAPOLATION (determining LOGICAL EXTENSION from known FACTS).

In terms of the Movement —particularly, the justice Movement aspect, the psychological Movement, the recovery Movement aspect, and the liberation Movement aspect – the word “Libby” means an Anti-Movement fool (sometimes a Satanist) out for gains of the small self. Such goals are material gains and fixes; not solutions. In contrast, I am simply “LIBERATIVE” – a Movement-driven EXTREME activist. To say I am a “L-I-B-B-Y” (a totally different name) is L-I-B-E-L. Perhaps you are willing to participate in my efforts to establish justice based on natural (spiritual) law. If so, there is a lot of meaningful work for you to do.

My latest findings include “Artifices of Intelligence”, which is similar to (but different than) Artificial Intelligence (in computer lingo from a few decades ago). In actuality, my Artifices of Intelligence are effective means for psychological progress, for those who are deserving. ARTIFICES OF INTELLIGENCE PERTAINS TO THE PROGRAMMING PRINCIPLES OF PASCAL, FORTRAN, COBOL, BASIC, and computer languages like that. It does not mean that you are turning yourself into a computer.

## MATHEMATICAL ONE-UP

While some of the divine children who are invested in spirituality refer to the sovereign transcendent being that creates and enlightens in other ways, I say that “One-Up” is the personal name of God – SKY COMMAND. And I mean that in the simplest, most abstract way. I picture the mathematical “one-up” as the number 1 directly above one’s head. The length of the #1 can be infinite — all that defines it is the direction. Therefore, the simple #1 represents (to me) INFINITY — unbound by nature. The #0 cannot be infinite in circumference, because the #0 requires measurability. The hollow inside the #0 must a FINITE (limited) space; else #0 would space itself. The “randomness” in nature is like

the computer function RND(1), which returns a wide range of numbers, usually between 0 and 1. But what the function does actually is to return a wildly fluctuating number within the computer as a positive number below one. Also, within what reality we personally experience, FINITE being #0 is a function of INIFINITY #1. If God is #1, then seeing oneself as #1 turns a function into an equation — “ $f(1) = 0$ ” becomes “ $1 = 1$ ”. It may be practical to think of equality (equilibrium) as the only axiom in natural law. However, in al-Jabr-aic equations, equal sides cancel out (as is checkable by equal subtraction leading to sums of zero). So there is zero point in attempting to function for the #1 without extreme humility. Also, when a worker zeros, the worker derives one point, or one limited set of points – often practical for a determinable search basis.

## **SUPPLICATION PRAYER**

You may find this kind of spiritual practice extremely enlightening and rewarding. WHEN I want to request enlightening from “One-Up” as to (A) the right protocol for me, (B) the right timing for running that protocol, (C) the truth regarding some interest, or (D) request knowing and manifestation of what “One-Up” wants regarding some interest, THEN I focus on the direction “up” and the number “one”, and WHILE doing so I say (silently or aloud) something along the lines of “One-Up, as regards [such-and-such], What do YOU want?” Then I pay attention, as a clear audio answer comes instantly. Sometimes I need to ask for clarification, so I perform another SUPPLICATION PRAYER.

## **CLEAR AUDIO SOURCES**

From what I can see, there are 4 kinds of drivers (and sometimes combinations of such) within the biological organisms such as homo sapiens, humpback whales, and Sequoia trees: children of gods, better genies and worse genies (kind of like good-cop/bad cop), and demons. Learning how to fight demons is like Jedi training with a light-saber and a lightning-ball. With the accustomed perceptions, the lightning ball is impossible to fight. Listen straightly up for DATA warnings as regards AOD's secret-special friends, who might push you to block RIGHT DATA transferal – the Satellite-Handed one-to-one. They might even cast interfering confusion-data through clever and choppy, mouth-spoken words. Somewhat like Luke Skywalker from Star Wars, in the scene on the Millennium Falcon, having been fitted with a pilot's helmet that was a

belonging . ostensibly . to the Rebellion which fought the Empire (as in "The Empire Strikes Back"). Luke is holding the blue light saber of his father (who at that point in the movie phenomenon has not been revealed but was Annakin Skywalker, who hit blocks and over a few days transforms into Darth Vader).

As Obiwan Kenobi instructs Luke, in order to perceive Obiwan's lightning-ball more appreciably, Luke lowers the blast-shield of the visor. You see how that works? With the blast shield down (like a visor) over one's face, one perceptions change – in the case of a Jedi, from optical to spiritual. When the illusions in one's perceptions are out alignment, lightning may strike. However, in contrast, when one works one's mind so as to bring the illusions into tight alignment, the lightning ball does not strike; and sometimes one strikes the lightning ball instead. However, the point, rather than to strike demons, is to learn to fend off evil forces till such (appointed) time as proper victory in the holy war over those forces can be won.

“VOICE SIGNATURE” (like is graphable) is the ability to recognize some data senders based on qualities within their transmissions themselves. However, genies have virtually no VOICE SIGNATURE, and frequently their numerical presence is hidden within the #1. In addition to tones of pitches (as in octaves), and tones of emotion, tones of moral qualities (like good and evil), can also be discerned within data streaming at you. Signals from above come higher-power gods, holy angels, and from and straight up from #1 (SKY COMMAND).

## **SKY COMMAND**

To communicate with Sky Command, it is necessary to think in an upward (ideally straightly upward) direction, and pay attention to what the genderless, raceless, all-transcendent God wants. Notice that the way in which a satellite dish works is opposite to the way that a precious-metal detector works. One works in an upward direction (the satellite dish), and one works in a downward direction. However, as regards communication with all-transcendent God, the thing that is that one's force of mind which operates like a satellite dish is actually a two-way radio. Having cleared out the way between oneself and the Almighty Maker, through directly expressing all of one's hatred and thanks concerning plans for creation. The two-way radio becomes active. Then, firstly, to experiment turn your writing hand upward like a satellite dish to receive input directly from God. Beam to God the questions,

“Should I do what [that person] wants?” and “What is the real data?” Then listen. God will tell you the answer. God is true. You can respond, “Aye, let that be.” (The ACCEPTANCE STATEMENT).

In terms of how I hear the “Voice of God Above” (VGA) a.k.a. “SKY COMMAND” a.k.a. “Radio Claro”, it is helpful for me to apply my psychological abilities like this two-way radio, which I call “SATELLITE-HAND”. SATELLITE-HAND beams-and-receives signals directly to-and-from the Lord above. Once SATELLITE HAND is activated and operating (if you speak English) you should begin to become aware of SKY COMMAND speaking of matters in terms of INTELs and PROTOCOLs. As is the case with databases, the DATA itself is meaningless until VERIFIED and combined into INFORMATION. INTEL means information, whether it is fully VERIFIED or not.

## **INTELS AND PROTOCOLS**

Usually, INTEL comes in short, uncomplicated, simple STATEMENTS (sometimes simply a word or a phrase). GOOD INTEL, in terms of SKY COMMAND means TRUE STATEMENTS (LOGICAL DATA with a value of TRUE.). COOKED INTEL means QUESTIONABLE STATEMENTS that are somewhat TRUE and somewhat FALSE – FUZZY LOGIC – BAD INTEL means FALSE STATEMENTS (LOGICAL DATA with a value of FALSE. Sometimes, God (SKY COMMAND) sends COOKED INTEL to SATELLITE-HANDED children of gods, so as to promote individual thinking and PROTOCOL development by God’s offspring. PROTOCOL simply means a TASK to PERFORM.

HELPFUL means Spiritually Enriching, HARMFUL means Spiritually Debilitating. HURT can be HELP or HARM, depending on moral intent (which is independent of personal value judgments). By necessity, personal growth of GOOD INTEL means listing POINTS OF FACT straightly; and such points of fact (as I say in the 2-page <http://liberative.tripod.com/FreeMindControl.pdf>) POINTS OF LEGITIMATE FACT are identifiable in that they are always 100% SIMPLE, always 100% HONEST, and always 100% SPECIFIC. From listed points of fact, one is able to move forward into more meaningful (although differently phrased – normally) GOOD INTELs and GOOD PROTOCOLs.

GOOD PROTOCOL means SMOOTHLY FUNCTIONING ACTION with HELPFUL results. BAD PROTOCOL means a dysfunction task with

harmful results. UNRUNNABLE PROTOCOL means a PROTOCOL which one lacks the means for COMPLETING with success (like a computer program that crashes, due to faulty code within it). PROTOCOLS should be RUN according to their order of PRIORITY; and sometimes God’s children can RUN more than one single PROTOCOL at the same time. In the computer world, that is called MULTITASKING. Do not RUSH. Do not HURRY. Doing so makes the running of PROTOCOL jam up. CORRECT DATA is a sort of a command statement and hint that means REASSESS the data pertinent AND perhaps arrive at the RIGHT DATA, which is GOOD INTEL. RIGHT DATA is virtually the same as GOOD INTEL. CERTAIN means IS. SURE means not quite. AGREE means YES, I ACCEPT. DISAGREE means NO, I DO NOT ACCEPT. Developing TRUE INTEL and SOUND PROTOCOLS (for yourself and for others – to assist SKY COMMAND) is critical upon learning to develop PROTOCOLS without any forming any value judgments in their FORMULATION. Personal ideas about what might be right and what might be wrong are always different (at least somewhat) from what SKY COMMAND – all-transcendent God per se – considers morally just, although as one increases in enlightenment become and more ACCURATE.

## **OBLITERATION PROTOCOL**

NEUTRALIZATION of the souls driving biological organisms means that the organisms may be continuing to function, but they are essentially like guided kite, with two strings and two hand-holders, capable of flying in fancy patterns. In the case of KITE beings, the bonds between the molecules in the beings’ bodies are like the KITE’s strings. Empty biological *homo sapiens* may be re-inhabited (if it suits God’s sense of purpose), but if the souls they were born with get cancelled, it becomes entirely likely that they will never be inhabited again. Something seems to be tying the birth-drivers to the biological organisms which allows their possession by other beings (“genies” and “demons”, I hold). Another term for neutralized is “transformed NICE”, which is a keyword you may hear biological *homo sapiens* speak with mouths after their hopelessly evil souls are cancelled. There is are vast difference between being a little irresponsible, being irresponsible considerable, and refusing to be GOOD at all – whatsoever. In other words, people who have just had their souls cancelled often announce specifically, “I am NICE, as though it’s their secret

name, or something. In such a sense, “NICE” does not mean anything moral about the person. The person’s soul has been OBLITERATED instead, fairly much like catching a zillion boomerangs of bad moral flavor at once. The neutralization process happens in a split second (chronometrically), but the time (as it passes) seems to span out over an eternity. Then a soul is gone. One-Up – (all-transcendent God) is always on top of everything, and demands our participation in doing the good things that God wants so that we can apply the resources which God provides us and receive back good boomerangs, thus enabling us to enjoy the good lives that God wants us to live, regardless of material prosperity.

And although I once hoped that there would be spiritual progress for everyone on the planet earth (in time), so all would rise to the spiritual LIGHT, I have come to realize that there are many people on the planet earth who are firmly committed to spiritual DARKNESS and for whom no real spiritual progress is possible. As ironic as that may seem, it is part of God’s plan for the perfect (and balanced) creation which is the infinite universe. At first, I could not tell the (inside) SPIRIT WORLD, from the (outside) MATRIX WORLD. For example, I thought that KITE PEOPLE and INSTANT RELAYERS were part of my imagination. However, now the difference between SPIRIT WORLD and MATRIX WORLD is becoming clearer to me. One of the myriad aspects that are involved in ending a global civilization (as that on the planet earth) is the neutralization of many, if not most of the souls. Despite what is commonly thought, most souls on this planet are temporary, not everlasting. Sometimes, that is the only option when a person has turned to evil. I call the cancellation of an evil spirit, including that of a soul and that of a demon (in contrast to a pleasant and unpleasant genies, and a mean genie), the Obliteration Protocol or “N.O.P.E.”, which stands for Neutralize and Obliterate Protocol – Execute! It may be invoked from God above with the simple data request “NOPE?” Also, you yourself, through supplication prayer, can fight evil and assist God in canceling out evil spirits by testing the Obliteration Protocol yourself, on seemingly evil forces, whether it is a child of gods that was born has turned evil, or whether it is a demon. Such is done by (the simplest way I know) beaming up the signal, “NOPE?”, listening, and responding “Aye. Let that be,” (the ACCEPTANCE STATEMENT). Or (to be slightly more complex, and thereby flesh out what you are doing, beaming up the signal, “One-Up [GOD

ABOVE], do you want to NOPE someone (even a demon) present?” Listen. God’s answer is the right one. To verify that you have received the answer, beam up the signal of the acceptance statement, “Aye. Let that be.” The same principle applies to all supplication prayer – asking God questions; agreeing with God’s answers. That is the only path there is, the only path there ever was, and the only path there ever will be to living the spiritually joyful that life offers to everyone. And that spiritually good life is independent on material wealth, although some material wealth is favorable.

## **HOLY WARRIORS**

As you may have heard, the cosmic HOLY WAR is real, and heats up, especially at the end of planets’ great civilizations, we are seeing on planet earth. Many changes have taken place recently so that Almighty God above heaven is rectifying life on earth. For example, Merlin’s archenemy, Morgan le Fay (the “belladonna”, meaning “rape victim”, as in “date rape drug” AND/OR an evil COMMAND STATEMENT – accompanied by silent consent [the opposite of abstaining from a vote]) plus Morgan’s modern PCP (“angel dust”) phencyclidine cult (led by the swindler Stevie Nicks) has been destroyed – rendered inoperable. In addition, significant work has begun so as to destroy Hitlerism, which is also known as “The Cult of US”. Particularly, this is being achieved through eradicating “Mein Kampf” from library shelves. About these events, there is the file <http://liberative.tripod.com/Edition1TSEAR.pdf> This is the first newsletter of the group that I (a.k.a. .Pipe., as “Meringue” informed me my name was to be, back in 2001) started. Army Of Light (AOL) is children of gods who want to do good, especially through correcting their own mistakes – never simply chastising or correcting the mistakes of others. Army Of Darkness (AOD) is the opposite and AODs do not want to even see their own mistakes. This dichotomy is similar, but different, than scripture verses it may remind you of. Again, beware of mixing up spiritual truth with mythology. Parts of the Bible are greatly consistent, and largely get at spiritual truth. Parts of the Bible are next to impossible for standard people to interpret correctly – sort of like TRUE/FALSE tests. Parts of the Bible are purely fictional (such as turning water into wine and creating more than one-from-one loaf of bread, or none in the case of the fish) And parts of the Bible (especially certain verses) are utterly FALSE (purposefully and to be tricky), meaning the OPPOSITE of what is TRUE.

## **SKIN RANGE AND COMPLEXION**

Objective truth indicates that *homo sapiens* skin tones are ranges, instead of single hues; thus, they are never white (as they are likewise never black). Instead, most *homo sapiens* have skin tones of Chocolatty, Apricotty, Caramelly, Sugar-Cookery, Maple-Syrupy, and Sweet-Potatoey. In addition, for clarity there are the Light, Medium and Dark complexions of those 5 ranges – for a total of 15 skin tones’ descriptions. Usually, the word “medium” (for complexion) is not expressed, except for clarity. Thus, there are “Light Chocolatty”, “Chocolatty”, and “Dark Chocolatty”, but most not “Medium Chocolatty” – although that complexion *does* exist. Notice also, that a person’s colors of skin range and complexion can change, as they often do under sunlight, and also when exposed to ultraviolet radiation (such as tanning lamps).

## **DRIVER FLIPPING**

While some children of gods flip out of the biological organisms into which they were born, choosing to live the lives they could have otherwise, many people phase out their driving capacity like someone detached watching a motion picture. To a point, one observes vital moments, so that the rightful driver knows key events and can participate, allowing for more responsible driving. But there may stop being vital moments altogether, to the point that one phases out completely, abandoning one’s vehicle of biological life. Watch for instant relayers. Being an instant relayer may signify that the person’s driver is phasing out, or has phased out already. A person asking for that person’s own memory data as assistance in portraying a person normally signifies that the driver has switched.

Supplication prayer can help return other children of gods into biological organisms (when appropriate).

## **ARTIFICES OF INTELLIGENCE**

Computers cannot think; BUT people who think CAN compute, I hold that Artificial Intelligence — the old dream of computers that DO think can be employed very well as a step forward in psychology – important knowledge that will help you develop functional thought processes of your own. Firstly, the careful wording and phrasing of mental statements (as though one were writing in a computer language) can help one to think more clearly. These sorts of clear and simple statements work together well with SUPPLICATION PRAYER. Besides CAUSALITY, there are ANALOGIES and also

COMPREHENSION. Logic is how ideas connect. The “CHARLIE WORD” is the most enlightened way of speaking of a thing (as in “C” — the speed of light. Be aware of the words “TRUE” and “FALSE” (and also) “IN FACT” and “NOT ACTUALLY”, especially in terms of logical sequences that go like “YOU SHOULD DO [such-and-such]”; so it (logically) follows that “YOU MUST DO . . .”; and then, in fact, “YOU WILL DO . . .” To my best of the reckoning, these words have been designed to facilitate our Genius. Also, there is only one timeline. So it is vital to realize what is “NOW” may (or may not be) “THEN”. In addition, what “IS” is objectively true. What “SEEMS” depends. “WHO”, “WHAT”, “WHEN”, “WHERE”, “WHY”, and “HOW” are at times vital to self-orientation. “QUESTION [who/what/when/where/why/how]IS/ARE [data word(s) in question]?” is a good request for informative data. Likewise, so is “DEFINE [unfamiliar data words]” “. . . OR . . .” and “PLEASE REPHRASE” help test protocols internally for functionality. “10 4” signals reception. “YEAH” and “[ROGER] WILCO” signal agreement; “NOPE”, disagreement. “RIGHT” means “proper and fitting”; “CORRECT” means nearly right; needs tweaking.

“HELP” means to move in a spiritually good direction (regardless of external likes). “HARM” means to move in a spiritually evil direction (regardless of external likes). “PLEASE” means to bring comfort to oneself or another (whether it is for good or evil.) It should not be confused with “APPEASE”. “HURT” means to bring pain to oneself or another (good or evil) and signifies need for change). “COULD” signifies “IN THEORY” and “TO THE BEST OF MY KNOWLEGE” — i.e. educated guesses. To “SUPPOSE” means to test a suggested protocol (ideally — internally, before external action). To “BELIEVE IN” means to be applying a particular principle as the basis for one’s protocol. The data words “BELIEVE THAT”, “TRUST”, and “SURE” signal the probable substitution of valid intelligence and protocol with imagination. “CERTAIN” signals accuracy.

FUZZY WORDS: “I THINK” (as an opinion) “OR SOMETHING” (ballpark) and “MAYBE” (exploratively). “FIGURATIVELY” flags nonsensical data. “OR” is valuable for rephrasing statements. “SOME”, “SOMEWHAT”, “LESS”, and “MORE” give a sense of relative value, similar to ranking priorities, or choices, in order of preference. “ALIKE” means similar, but not the same. “DIFFERENT” does not mean “the same

(somehow)”; SAME and DIFFERENT are ANTONYMS. Words like “EXPECTATION” and “ASSUMPTION” signal leaps of logic and need for greater care. “TRUST” combines “ASSUMING”, “EXPECTING”, AND “BELIEVING”, which are (all three) EVILS. Words indicating DENOMINATIONS signal divisions, thus warning of potential to self-damage. Other similar words include those for POLITICAL PARTIES, ETHNIC GROUPS, and NATIONALITIES. Also, beware of EXCUSE WORDS that sound settling, such as “AT LEAST” and “EVEN IF”.

“CAN” suggests a mistaken protocol that one might perform and learn from having done. ESPECIALLY, beware of the word “MAY” that asks for permission — normally to harm. FURTHERMORE, beware of SARCASTIC statements that could be interpreted as statements of fact. 4 KINDS of straight-forward statements which may be TRUE, FALSE, LOGICAL, ILLOGICAL, or MIXED include: (A) QUESTIONS — requests for data (from some source),(B) DESCRIPTIONS — how things are, (C) EXPLANATIONS — how things function, and (D) COMMANDS — protocols to be performed. Normally, I co-operate with but seldom do I obey COMMANDS. And always I try testing protocols before performing them. Furthermore, the values and purposes of beings bound by space and/or time frequently differ from those of the transcendent “One-Up’s”, So, thinking without forming value judgments is vital for writing effective protocol. Plus, in terms of the Spirit World, 2 is more than 1, but it requires 3 to make a “some”.

Some of the benefits for my Artifices of Intellience are clear. For example, a computer running a program in the language of PASCAL instantly registers that the character string “liberative. is not equal to the character string.”libby”, even as the mind that a child of gods has (having learned to objectively think about colors) instantly registers that the Crayola color “apricot” is not equal to the color “white”. According to the same principles, it is instantly registerable that the Crayola color “tan” is not equal to the color “black”.. You see, in modern computers, colors are represented by 3 bytes – representing the pixel aspects as values of red, blue, and green, in the format R, G, B ([0-255],[0-255],[0-255]). So, white is 255, 255, 255 and black is 0, 0, 0 . while apricot and tan have R, G, B values such that none of the values is 0 and none of the values is 255. For contrast, RED is (255, 0, 0); BLUE is (0, 0, 255).

## **DEVELOPING CLEAR THINKING**

Your mistaken thinking and your false confidence has betrayed you, so question your own thoughts (as to their validity). DO NOT ASSUME ANYTHING! That means anytime you find yourself formulating ideas with gaps, based on some things that you remember and other things that you are making up, DISREGARD the BIGOTTED formulations, and seek to avoid developing through processes along similarly BIGOTTED lines. NEVER lean on what you BELIEVE; rather, TRUST what you actually KNOW. AND DO NOT EXPECT ANYTHING! Of what God will bring to pass in the FUTURE, you simply know next to nothing. KEEP running this PROTOCOL. THESE ARE GOOD AND RIGHT PROTOCOLS – CORRECT RUNS. I want those who profess to be in favor of mental health to work against the predators who drive victims to suffer episodes of psychosis in the first place – that such said predators be exposed with adequate evidence leading to their convictions in courts of law, and before the world through media such as the Internet and open letters, if not in courts of law per se.

## **FALSE “RELIGIONS”**

Churches and other worldly temples are masks for evil (all of them). Don’t believe me; ask Sky Command. Such congregations can be subverted, but not converted and mostly work to steal souls – making people snap out at the point that they feel they can be irresponsibly strongly enough. Notably, they serve to promote irresponsibility and abusiveness – throwing bad-flavored boomerangs in the dark. Spiritual boomerangs always circle round and come straight back. That is why I try to always do good and fight for justice NOW.

The cult of Jesus-ism effectively performs whatever actions jolt the brain with the most electricity, so as to produce the exclamation “Jesus!” Jesus is actually a different person than Yushua of Nazareth (the one who is commonly called “Jesus” (English and Spanish), “Jesu” (German), and “Iesu” (Latin) . Jesus steals souls and gives them to Satan, by leading them to believe that they don’t have to be responsible (at all – whatsoever, although in fact we do). The word “Christian” appears exactly 4 times in the Bible, always as an adjective, and never with a definition as to what a Christian is or what a Christian does. Christianity is not a word in any Bible verse at all. Thus “Christianity” PRECISELY is a corruption. Also, it is a subversion of the libertine gospel.

## **DISCERNING ENTERTAINMENT**

Develop better TV viewing habits. Beware that the afternoon programs called “soap operas” are essentially TWO-WAY FILTH-TARGETED PROGRAMMING. Remember that what you see on the “news” is essentially current historical fiction, as exhibited by the absence of virtually all foreign news correspondents. REMEMBER: Not only do the photogenic people (as seen on TV and movies produced in the United States) not look like most people in the United States; they don't look like anybody else on this planet. The old L.A. Jet Set was different. Don't watch violence-driven TV programs. Don't watch morning TV programs featuring celebrity GOSSIP. Do not watch soap operas; they are filth-targeted programming, and you shouldn't program yourself with that filth. Engaging in the world of popular media, such as reading books, watching TV programs, viewing movies, and listening to audio recordings consumes time, so carefully evaluate your choices BEFOREHAND. Do not “GUESS” for random media in which to engage. As a second example, I hold that watching TV is mostly worthless and sometimes detrimental. As a second example, I also hold that the monarch of horror (Stephen King) has largely phased out of being responsible for the biological organism he was born to drive, thus explaining his much longer novels as of lately - a bit like Jack Torrance, sitting behind his typewriter, in the Sidewinder Hotel, in the movie *The Shining*, when he says “Flow, Jack . . .” and proceeds to write page after page of the text, “All work and no play makes Jack a dull boy.” So, when it comes to books (as you choose) BEFORE you check out a novel from a library, BEFORE you borrow a novel from a friend, and BEFORE purchase a novel from a bookstore, consider clues such as the text on the novel's cover and book reviews (many of which are available online, especially for worthwhile books). BEFORE you watch each TV program (as you choose), consider aspects such as what you KNOW about previous episodes and what periodicals describe the upcoming content as being. BEFORE you view each movie (as you choose), employ similar means of making a reasonable determination. Likewise, before you listen to radio stations, musical performers, or audio recordings, evaluate your choices. THEN AFTER your experience of engaging in media, DO NOT hurry ahead to the next itinerary point on your timeline; RATHER, EVALUATE the media experience just passed, for what you LIKED, what you DISLIKED,

IMMORAL CONTENT, MORAL CONTENT, etc. EVALUATE the sum of your other media experiences thus far. And EVALUATE (if you can) any KNOWLEDGE you have gained about what you WANT for your future experiences engaging in the MEDIA to be.

## **KEEPING WHAT'S GOOD**

If you have the means and the initiative, sort through your personal belongings (ones that are yours alone). Keep only ones that bring good feelings to you when you hold them and consider what they mean to you, regardless of their practicality or functions. Such has worked for others and myself, time and time again. Conversely, discard any of your personal belongings that bring any bad feelings whatsoever when you hold them and consider what they mean to you (likewise).

## **CONCLUSION**

I, myself, am a prophet and a guide for the end of this world age, and I ask that you consider me as such, with full respect for all-mighty, all-transcendent God, who is on top of everything that is—absolutely. I will help you, insofar as you are agreeable to the Army of Light and Sky Command. Plus, it is the Judgment Day – that is, end times for the world age. As facts continue to establish, you can trust me, believe me, assume that I have been truthful, and expect that I will do the right thing consistently. However (as facts also continue to establish), the same is not true about other people. In fact, if you are a regular person, the safest assumption is that virtually nobody else you know can be trusted at all. As I say on my website, I am a member of the (godly) Liberation Movement – somewhat like Abby Hoffman was back in the 1960s. The opposite of a Liberation Movement member has a similar-sounding name, but one which is opposite in meaning – a “Libby”. Some of the many Variations of “Libby” include “Sss-Libby-s” or “SLIPPIES” (the random poppers of synthetic pills – enemies to the hippies) and also “Libby-for-real-s” or “LIBERALS”. Notice the 7-letters of the ADJECTIVE “liberal” by necessity have an “s” added, forming a totally different, but deceptively similar NOUN, instead.

**YOU ARE NOW  
UNDER SKY COMMAND!!**
