

Vedic Mathematics

workshop and seminar

EVER WONDER HOW SOME PEOPLE CRUNCH NUMBERS IN THEIR HEADS WITHOUT USING CALCULATORS OR COMPUTERS?

“VEDIC MATHEMATICS” IS THE ANSWER!

What is Vedic Mathematics?

Vedic Mathematics is an ancient Hindu method of making fast, mental calculations useful in all branches of mathematics, including arithmetic, algebra, trigonometry, geometry, and calculus. You can find squares, cubes, square roots, cube roots, multiples, factors, recurring decimals, and even solve equations!

The Speaker

Ravi Kumar of Chennai, India, has traveled throughout the world over the past 25 years, conducting over 100 workshops on Vedic Mathematics, Vedic Science, Hindu Influences on Western Civilization, and Hindu Deities as Symbols of Scientific Principles.

Before becoming an expert on Vedic Science, Ravi ji completed his bachelor's degree in Instrument Technology from the world-renowned Indian Institute of Technology in 1970 and worked as an engineer for several years.
