

Lake Macquarie Coastal & Wetlands Alliance
Our Vision for the Future

For as long as the sun continues to rise and set over Lake Macquarie, we want everyone to be able to freely enjoy the natural delights of our headlands, beaches, heathlands, dunes and wetlands, with their rich variety of marine, aquatic and terrestrial flora and fauna.

Our Commitment

- ensure the ecological integrity of our coastal region's terrestrial, wetland and marine environments between Munmorah and Glenrock State Conservation Areas;
- increase community awareness of the value of conserving, safeguarding and rehabilitating our precious landscapes and seascapes for tomorrow's world;
- support and assist the Community Trust that manages (with the Department of Lands) the new state park between Belmont and Redhead;
- work with others on the establishment of the Lake Macquarie Coastal Wetlands Park between Redhead and Swansea;
- maintain positive relationships with the community, local, state and federal government and related agencies and groups to achieve a sustainable future for our coastal region;
- ensure that any major rezonings and new developments are consistent with the principles of ecologically sustainable use.

Lake Macquarie Coastal & Wetlands Alliance
Membership Application

I hereby apply to become a member of the Lake Macquarie Coastal & Wetlands Alliance

Jewells NSW 2280

Alliance achievements and projects:

- ✓ The establishment of a new 525 hectare state park along the coastline between Belmont and Redhead
- ✓ Obtained State and Council support for the establishment of the Lake Macquarie Coastal Wetlands Park between Redhead and Swansea
- ✓ Prevented the destruction of significant Redhead bushland through opposition to a commercial development
- ✓ Worked with others and prevented inappropriate residential development on the Belmont – Marks Point shorelines
- ✓ Supported Lake Macquarie City Council in attempting to preserve bush buffer zones adjoining Belmont Airport
- ✓ With others, prevented inappropriate development adjacent to Glenrock State Recreation Area
- ✓ Sought the retention of public ownership in Crown leasehold lands
