

**SOMEDAY
MAYBE...**

Written and illustrated
by Lee LaMarche

Ladies and gentlemen... it is our pleasure to introduce the star of our book:

KAYLA

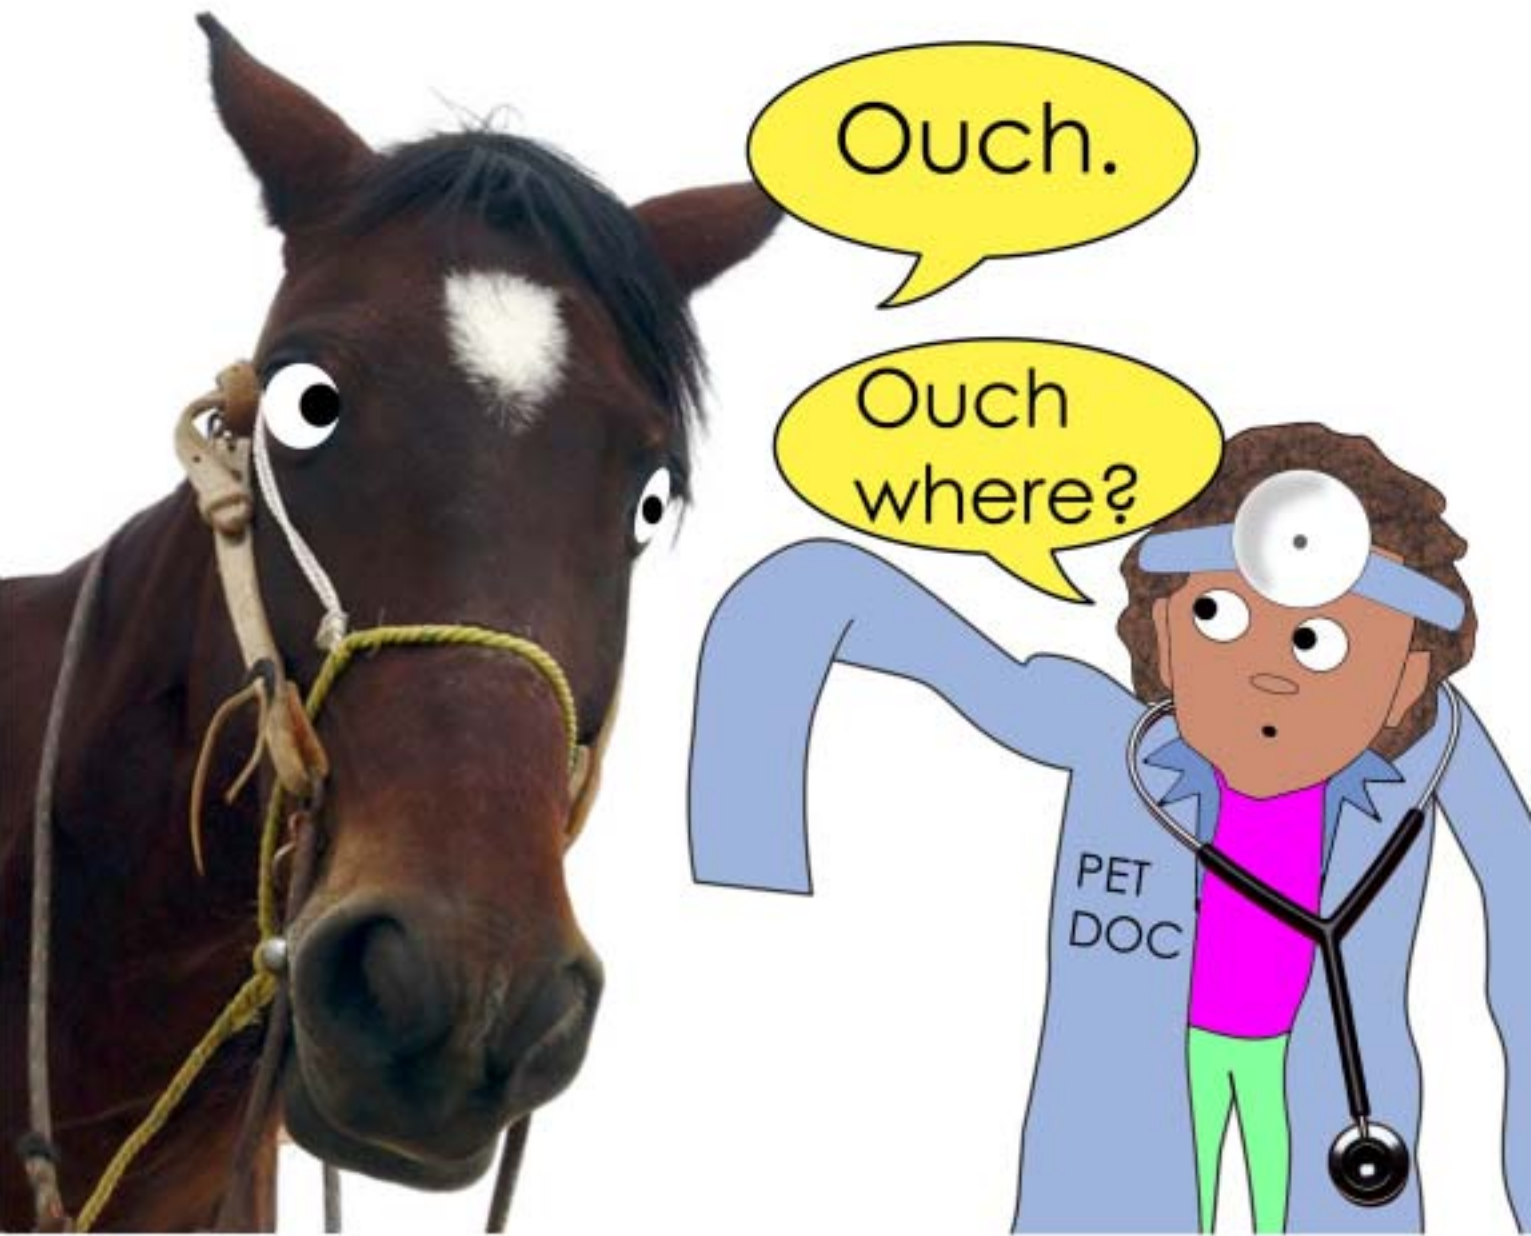

There are so many different things we can be when we grow up. Kayla is going to help us think of some good ideas. So on to our first idea...

CHEF

How about being a chef? When you are a chef you get to make all different kinds of food with all different kinds of ingredients. You could make cakes or pies or pasta or chicken or even cookies. A kitchen can be a fun and crazy place if you know how to cook. So why not give it a try? **Or maybe...**

VETERINARIAN

You could study to be a veterinarian. They are animal doctors. Some only work with specific animals, like horses or tigers. Others take care of all kinds of animals, from the smallest mouse to the biggest elephant. Even animals need someone to take care of them when they are sick. That could be very interesting. **Or maybe...**

ARTIST

You could always be an artist, maybe a painter. Designing beautiful works of art that tell stories through colors and lines, shapes and angles. Some day your work could be in a museum. You could have your own gallery and invite people to view your creations. As an artist there is nothing to stop your creativity. Create whatever comes into your head. **Or maybe...**

CARPENTER

There are so many people that need their houses fixed. There are even people that do not have houses. You could help these people by being a carpenter. You get to use hammers, nails, saws, levels, and many other interesting gadgets. A carpenter works with all types of wood to create small things like bird-houses all the way up to big things like people houses. **Or maybe...**

ACTRESS

People are always looking for the next great actress. You could be that actress! Maybe you would learn all your lines from a script, get to put on a costume, and act in front of a camera. You could stand in front of a set background that helps you pretend. Just imagine all the different roles you could play! **Or maybe...**

GARDENER

Do you like to see plants grow from tiny seeds into flowers? Perhaps you could be a gardener. A gardener lovingly takes care of all the things that happen in a garden. You choose the right plants, clear the soil, bring the water, even grow vegetables! The garden can become your very own, living work of art. **Or maybe...**

SINGER

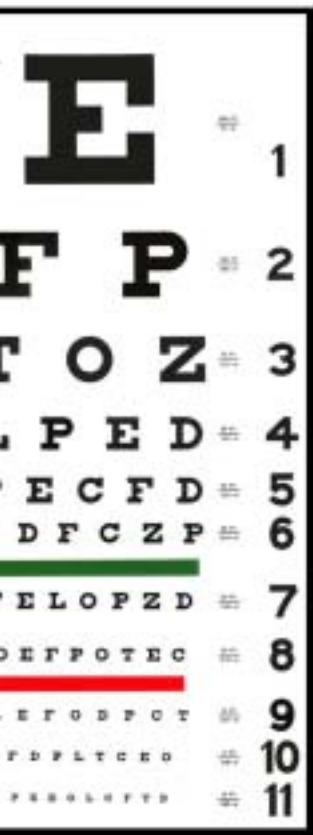

Have you ever thought of being a singer? That can be a lot of fun. You could write your own songs and then sing them in front of huge crowds of people at your concerts. Can you imagine singing a song that millions of people want to hear? Your voice could be coming out of every radio in the country! **Or maybe...**

JUDGE

There need to be people that make sure the laws are being followed. These people are called judges. You could always be one of them. Learning the law, wearing a black robe, making sure criminals get punished and that innocent people go free. It is a job with a lot of responsibility. Do you think you could do it? **Or maybe...**

DOCTOR

Oh! Here's a great job! A doctor for babies! You could take care of newborns, help new mommies, make sure all the babies were healthy and ready to go home from the hospital after they are born. You would be very important because there are always so many babies that need to be watched over. **Or maybe...**

PILOT

Every plane needs a pilot. That is a fact. So why not try that? If you pass all the tests they'll let you fly whatever kind of plane you want. For example, you could fly big, giant, huge passenger planes. Or maybe you want to do tricks in your plane. If you do, then there is nothing like a good old biplane to help you on your way. **Or Maybe...**

TEACHER

Have you considered being a teacher? You could talk to all the children in your class and teach them about all kinds of subjects. Here is a tiny piece of the list of what you could teach: Math, English, Social Studies, Foreign Languages, Computers, Science, and even Health. Being a teacher is an important job. **Or maybe...**

PLUMBER

Okay, now this one might seem a little strange, but have you ever thought about being a plumber? Sure, it's a dirty job, and you may need to wear special gloves, but you get to use things with names like "snake" and "plunger" and "gromet". Plus, people always need plumbers as long as there are pipes. Think about it. Overalls, boots and gloves. It could be interesting. **Or Maybe...**

JEWELRY DESIGNER

Alright. Here's one that cannot miss. You could be a jewelry designer. You could create all sorts of beautiful earrings and necklaces with everything from glass beads to precious stones. Do you know anyone who does this? You should talk to them and they can tell you all about it. Or maybe...

CEO

Okay. So we've seen all the different jobs you could have but we have one last one. Why get a job when you could **START** a business instead? Your very own company. One with a huge building with your name on the outside. KaylaCorp. You could be the CEO. *Kayla the CEO*. Now that sounds great.

Well, those are all really interesting jobs. We have lots of choices. So, which one do you like?

“THE END”
