## SKILLS

Many skills. What do you need? I  
have a rock. Do you need a rock?  
I have plenty of rocks.

---

---

## EXPERIENCE

---

### SUPER SCIENTIST/ SCIENCE INSTITUTE FOR SCIENCE

Totally real picture of me working.

(I actually really did work for a microbiology lab in the past...with finesse similar to the image...thus why I not longer wish to work in labs)

### IMPORTANT ARTIST PERSON/ SALON D'FAUX

Also totally real image of me art-ing. Look at those skills.

Painting, markers, weird stuff, glowy stuff

I love it all! Except drawing apples.

I hate drawing apples.

But apples taste good.

But not the red ones.

I only like yellow ones.

But I hate the color yellow.

My favorite color is green.

---

## EDUCATION

---

### **ASSOCIATES IN SMARTNESS**

RHESOSP (Really Highly Esteemed School of Smart People)

GPA: 9000.99

Graduated with smart honors. School celebrated with fireworks and vodka. It was rad.

Radiation is not rad.

Pretty bad actually.

Rad.

Bad.

Bad rad.

Rad bad.

Raddest bad.

Oh yeah, school...

Did well, I think.

---

## VOLUNTEER EXPERIENCE OR LEADERSHIP

---

I was a part of a few clubs. Always supplied the glowsticks and body paint. Led people to all the right spots in town.

Lights make the world a better place.

Glow stuff is cool.

Stay hydrated.

But don't drink the ocean,

It's salty.

Saltier than bacon.
