### Career: (Latest First)

#### **Oracle Solution Services, Bangalore (India) – (Dec 2000, till date)**

Presently working with Oracle Solution Services India, Bangalore, since 18/Dec/2000. Oracle SSI is offshore consulting organization, mainly in Oracle Applications 11i. My job involves Installation, upgrade, platform migration, patching, trouble shutting, maintenance, cloning, deploying high availability technical architecture of Oracle Applications 11i, also install & configure add-on products like Express Server, ODP Engine, OFA with Oracle Applications 11i on various OS like Sun, HP, NT, IBM Aix, Linux etc. Apart from these, as secondary skill of development, has upgraded the custom Applications codes from version 10.7 to version 11i. Also conducted various trainings for internal and Oracle Education for Oracle 9i, 10g DBA and PVCS. From last 2 years, working as Lead DBA, where in I am responsible for managing junior dba's, configuration management, distribution of workload, customer communications, setting and documenting procedures etc.

Currently working as SPOC DBA for 11i French customer (Lectra, CGST), Dubai based Tejari, Albania based Intech, and Belgium based VSKO.

Along with these activities, actively involved in creating new service lines in DBA field, bids and proposal preparations.

Received numerous awarded in Oracle SSI, following are few of those.

- 1) 1<sup>st</sup> Award for Innovation “Remote monitoring systems”
- 2) Consultant of the quarter
- 3) EMEA Best project award Sony France upgrade
- 4) Project Award for Govt. of Uganda Production Implementation.
- 5) Knowledge management contribution award
- 6) Knowledge management story telling 3rd award

**Thermax Ltd, Chinchwad, Pune (India) – (May 2000 to Dec 2000)**

Was working with Thermax as Senior Executive from 15/05/2000 to 15/12/2000, on D2K and Oracle 8.X. was involved in the phase of implementation of TERMS (Thermax Enterprise Resource Management System), which is developed in D2K. Some of the Important Management Reports were developed, and we had transferred the data from old system (FoxPro) to Oracle. The volume of data that we were handling was around (13+7) GB on (1+12) NT Servers, we had fine-tuning our application.

**Talware Consultancy Services, Pune (India) – (May 1999 to May 2000)**

Was working with Talware Consultancy Services, Sinhagad Road, PUNE, as Oracle DBA and Sr. Developer form 01/05/1999 to 12/05/2000, on Oracle, Developer 2000 & Visual Basic 6.0. During this period, had developed more than 200+ forms, 350+ reports and thousands of pl/sql’s.

**Kirloskar Pneumatic Co. Ltd. Pune (India) – (Aug 1996 to Apr 1999)**

KPCL was my first organization and was selected in campus interview, and was working with KPCL from 11/08/1996 to 23/04/1999 in Tool Design Department. After management training in KIAMS, was working as In-charge of Tool Design, Process Planning. Was responsible for New tool design, Process planning, Tool maintenance, New Designing in R&D. Along with these activities, have developed software for department use.
