

Amendment Slip No. 04 March 2008 to the G&SR 2006 edition. dated 25.03.2008

1. Insert the following sub-rule (3) in GR 3.52 at page 55

“(4) Red or green light referred to in sub-rule (3) shall be either a static or flashing type.”

2. Substitute the following for the existing GR 3.66 at page 73

“3.66 USE OF FLARE SIGNALS :- When it becomes necessary to protect an obstruction in a block section and a flashing hand signal is not provided, a flare signal may be used, as prescribed by special instructions, while the railway servant proceeds to place detonators.”
